## FAUST PARK – FLOWERS WE CAN EXPECT TO SEE Week 15 (2<sup>nd</sup> Week of July)

Since there are so many different flowers planted in this beautiful park, we've organized our Botany Walk into 3 areas: the "Historic Village", the "Carousel area", and the "Butterfly House area". This list of the more notable plants is also organized into 3 corresponding sections.

### HISTORIC VILLAGE:

This includes the Doctor's garden. When Doctor Bates (the son of Missouri's 2<sup>nd</sup> governor) used to live here, he likely had a garden in which he grew the many medicinal herbs that he would have needed in his practice.

#### CAROUSEL AREA:

The building that houses the St. Louis Carousel is new, but the carousel inside is more than a century old! It'll be in operation while we're looking at the flowers, so we'll try to stay inconspicuous.
