

4

ST. FRANCOIS STATE PARK - FLOWERS WE CAN EXPECT TO SEE Week 4 (4th Week of April)

This list is for the flowers that can be found on the first 0.56 miles of the Mooner's Hollow Trail (from the parking lot to the *Camassia* flowers growing just past the Indian Paintbrush in the high glady area). A few more flowers (including Shooting Stars and Larkspurs!) can be found if the entire 2.8 mile loop is taken, but they're not listed here.

	BOTANICAL NAME (with genus pronunciation)	FAMILY [CC] = Coefficient of Conservatism	COMMON NAME ☼ = Flowering
☐	<i>Antennaria parlinii</i> (an-tin-AYR-ee-uh)	Asteraceae (Gnaphalieae tribe) CC5	Parlin's Pussytoes ☼ (+ fruit)
