## NOTES

**WHERE WE WALKED:** We walked the entire loop in a counterclockwise direction so that we could climb UP instead of climb DOWN the stairs halfway through our walk. Near the end of the loop was a fen where we spent quite some time identifying an entirely new community of plants. Just look how long our species list is! Bootleg Access is indeed a richly diverse place!

PARTICIPANTS:

There were 9 of us botanists today, who are (in alphabetical order):

Prem Barton, Kathy Bildner, Alan Brant, Jerry Castillon, Wayne Clark, Michael Laschober, Burt Noll, John Oliver, and Kathy Thiele.
